Speaker Info

Presented by Kathryn Atkinson, DVM, MS, DACVIM

- **“How Can I Become a Better Cardiology Diagnostician?”**
An overview of how a technician can maximize the information available to them to identify small animal cardiac patients.
- **“Straight to the Heart of the Matter: Updates in Cardiology: Updates in Cardiology”**
A discussion of the latest updates in small animal and some large animal cardiology, including novel therapeutic and diagnostic tools.

Presented by Megan Brashear, CVT, VTS (ECC)

- **“Respiratory Emergencies”**
A discussion of common veterinary respiratory emergencies and how they present, initial treatment and hospitalized care.
- **“Shock, Sepsis and SIRS”**
Learn about the causes of shock and how to recognize it in your patients. We will also discuss ways to treat and monitor shock patients.
- **“Small Animal CPR”**
An overview of CPR basics and post arrest care of the resuscitated patient.
